High Visibility Fabric

High visibility fabrics for manufacturing safety products, safety along with comfort. Can meet requirement of EN 471 standard.

Double Faced Knitted Fabric

In fabrics manufactured with Tiger's double knitting technology, the external face is in 100% polyester while the internal face is in 100% cotton or cotton with conductive fibres. In this structure the features of durability and endurance of a polyester fabric are combined with comfort that a cotton fabric is able to supply when in contact with the skin.
